Advanced Level Learning Management System

This is an affordable, robust and completely scalable system, which enables organisations to deploy, manage and report on learning via an Intranet or the Internet. The system is AICC and SCORM compliant allowing a wide variety of off the shelf materials and authored materials to be fully integrated.

Features:

- Assigns and tracks all forms of classroom, resources centre and web-based learning
- Provides Intuitive and user friendly interface and customisable interface
- Management reports to evaluate learning performance
- Provides online collaboration including; forums, chat rooms and e-mail tutor.
- Flexible structure allows different combinations of user groups to be created to suit an organisation's structure e.g. locations, job role and tailors course catalogues to fit corporate training needs.
- Identifies and addresses skill gaps between competency levels and job profile requirements for both individuals and groups.
- Is AICC and SCORM compliant to enable easy integration with a wide variety of training content.

The Performance module adds performance review, appraisal, a competency framework and 360°assessment functionality.
