Entry Level Learning Management System

The CP2 Learning Management System is an entry level LMS primarily designed to run the IT Online Training courses and output from the VCB authoring tool

CP2 is an easy to use LMS that allows trainers and administrators to manage users, deliver training, track usage and produce reports.

This Learning Management System is AICC only.

Features

- Resides on the Web Server (Win 2000, IIS 5 / Win 2003, IIS 6)
- Can be delivered via thin client eg. Citrix
- AICC compliant
- Access , MSDE or SQL based (not Oracle)
- Scalable
- No plug-ins or downloads, entirely server based
- Browser IE5.5 or higher. Firefox is not supported.

- Manages Users – individual, sub group, main group, and department
- Manages Security – 3 levels: User, Manager, Administrator
- Allocate Courses
- Records time online and test results
- Provides Certificates
- Provides Standard Reports, with graphs
- Provides a Training Menu to launch courses

- Centrally controls audio on/off
- Delivers and tracks- IT courses, Visual Course Builder authored training courses and several other popular off the shelf e-learning ranges.

Annual Licence includes free upgrades & support.

NOTE- CP2 can be used in a training room or learning centre on stand alone PC's or laptops. In this situation, CP2 installs Apache web software and uses its default Access database.
